STRAIN=FP-9 / Isolate HP-438;
MEDLINE=88229622; PubMed=2836548;
Tomley F., Binns M., Campbell J., Boursnel
"Sequence analysis of an 11.2 kilobase, ne
of fowlpox virus.";
J. Gen. Virol. 69:1025-1040(1988).
-I- SIMILARITY: Contains 8 ANK repeats.
-I- CAUTION: Ref.2 sequence differs from t
in position 204, 219 and 237.

T' "Genome sequence of the plant pathogen and biotechnology agent
T' "Genome sequence of the plant pathogen and biotechnology agent
T' Agrobacterium tumefaciens C58.";
Science 294:2323-2328(2001).
C --- FUNCTION: Catalyzes the ferrous insertion into protoporphyrin IX.
C --- CATALYTIC ACTIVITY: Protoporphyrin + Fe(2+) = protoheme + 2 H(+).
C --- SUNCILARITY: Belongs to the ferrochelatase family.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        Query Match

SUBUNIT: HETERODIMER OF AN ALPHA AND A BETA SUBUNIT. TH
SUBUNIT IS COMPOSED OF AN HEAVY AND A LIGHT CHAIN LINKE.
DISULFIDE BOND. ALPHA-5 ASSOCIATES WITH BETA-1.
SUBCELLULAR LOCATION: Type I membrane protein.
SIMILARITY: BELONGS TO THE INTEGRIN ALPHA CHAIN FAMILY.
SIMILARITY: Contains 7 FG-GAP repeats.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         Repeat.
